I unequivocally recommend Mike and BarMar. Mike is the most thorough, meticulous, skilled and creative contractor you'll find in Atlanta. He's professional, responsive and works with the absolute highest level of integrity.

He has completely remodeled our kitchen and main bath, and built a custom bar/fireplace in our entertainment room. He personally does exceptional work, and be assured that anyone he brings in to help will also be trustworthy and talented.

You simply will not find anyone that could do better, higher quality work for the type of job you describe.

I'd be happy to answer any other specific questions you might have. You also can call me on my cell at
